The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Swartz et al (U.S. Patent No. 6,048,563).

Swartz et al disclose the claimed food composition comprising galactomannan and yogurts or cream soups, which contain protein (column 5, lines 10-18). The administration of such a composition would inherently prevent a bowel disease..

Claims 1-4, 9-13, 16 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by the Japanese Patent 6-225734-A.

The Japanese Patent discloses the claimed composition comprising galactomannan and a method of administering said composition as a beverage. The prevention of a bowel disease by said administration would have been inherent.
